1. [REDACTED] telephoned to talk about the printing of the Sprague Committee Report. He said that [REDACTED] was handling this and I asked him to put [REDACTED] in touch with [REDACTED] who would be glad to work out the necessary details.

2. Shef Edwards reminded me that we still had outstanding with General Cabell and Lyman Kirkpatrick the question of periodic reporting on security problem cases. We have been holding Lyman's memorandum on this subject pending his return from Europe; however, I advised Shef that I would take up this matter with General Cabell again right away.

3. I talked on the squawk box with Mr. Dulles at some length who still doesn't

25X1A1d

4. Shef Edwards talked to me again about his plans for retirement. He said that he had several people in the Office whom he was trying to persuade to retire, and, in order to set the proper example, he would like to announce right away that in accordance with the policy he planned to retire on 1 July 1962. I told him that while I saw no reason why he shouldn't do this if he wanted to, I would like to have him defer for a day or two from taking any action. I want to think over the matter and decide whether he should speak to the Director or General Cabell before taking this action.
